GCSE Psychology

Teaching from: September 2017

Exams from: June 2019

Specification code: 8182

QAN code: 603/0932/5

Our new GCSE Psychology specification offers an engaging and comprehensive introduction to psychology. With a clear and straightforward layout, as well as refreshed and contemporary content, we've made it clear what students need to study within each topic so you know exactly what you'll need to teach. We've also kept the flexibility that you told us you liked about our current specification, giving students a choice and allowing you to teach your areas of expertise and interests and re-use your existing resources.

Psychology specific revision and exam technique

- Key terminology and definitions are **VITAL**
- **KEY STUDIES** (aim, procedure, findings, conclusion and **3** evaluative comments)
- For all theories and/or studies, you need **3** evaluation points.
- Timings – no more than 12 minutes on a 9 mark question

As a parent how can I help?

Exams are about retrieving knowledge – in order for a student to be good at this they need to practice.

Make question cards with the answer on the back, then you as a parent can test your daughter/son.

Have key word quizzes.

Ask your daughter/son to explain a theory or a study to you – if they can explain it well, they have learned it.

No music when revising. Take phones & computers away.
